Montpellier - Tuesday 14 September 2021

Climatology: ENERGAÏA 2021, the must-attend event

Pre-registration now open on [energaia.fr](https://www.energaia.fr)

Registrations are now open for the 2021 edition of the European renewable energy Forum which will be held on 8 and 9 December at Montpellier Exhibition Centre, with the active and committed support of the Occitania / Pyrénées Méditerranée Regional Authority.

Renowned speakers to address the climate emergency

Valérie Masson-Delmotte, the leading French climatologist, a leading figure in the fight against global warming, will honour EnerGaïa with her presence. Other guest speakers include Sophie Swaton and Eloi Laurent, researchers at the cutting edge of ecology transition issues.

The climate crisis has finally come to affect developed industrial nations. The mobilisation to deal with it must be on a par with the size of the threat, and urgent measures must be taken. On 8 December, the scientists will discuss the topic during a keenly-anticipated inaugural round table.

Registration, talks schedule and list of speakers: visit <https://www.energaia.fr>

About Forum EnerGaïa: An annual event dedicated to renewable energy industry professionals, supported by the Occitania/Pyrénées-Méditerranée Regional Authority and organised by SPL Occitania Events, the European Forum EnerGaïa has been accompanying the renewable energy industry for nearly 15 years. Backed up by a content-rich programme of talks, round tables, workshops and pitches giving centre stage to the expertise of key players in the sector, Forum EnerGaïa has reasserted its status as a major meeting for renewable energy professionals.

Its ambition: make innovation a cornerstone of the Forum and actively contribute to new French and international energy issues whether in cities, communities or industry.

From the latest innovations to major ongoing or planned projects and from the latest industry news to new regulations, project financing and shared experience, a wide range of highly tangible subjects are covered at the Forum which for its 14 edition expects to welcome more than 7,000 professionals and 200 exhibitors.

Forum EnerGaïa has received the backing of COP21, COP22, COP23 and COP24. It is organised under the high patronage of the French Ministry for the Ecological Transition and the European Commission Representation in France.
