

12 September 2022

7 & 8 December, Montpellier Exhibition Centre, France

In response to the climate and energy emergency, EnerGaïa thinks big for its 2022 edition

With the opening of a third hall, exhibitor numbers on the increase, broader international appeal, a live content venue newly expanded and built into the exhibition space, and the inauguration of two new themed pavilions on “Sustainable buildings” and “Sustainable transport and mobility”, the 2022 edition of Forum EnerGaïa has given itself the wherewithal to respond to the challenges of an energy and climate emergency at the centre of everyone’s concerns.

Pre-registration now open

As an essential meeting for the Renewable Energy industry, sponsored by the Occitanie / Pyrénées-Méditerranée Regional Authority for the past 16 years, Forum EnerGaïa is keenly awaited by professionals and local authorities in search of tangible answers to their environmental concerns.

Visitor registration is already open at www.energaia.fr

Preparing communities to withstand crises

“Living in peace, preparing the world ahead” is the title of the plenary lecture which will open the Forum, alluding to the **adaptation policies** advocated by the latest report from the IPCC. The entire programme of talks, workshops and round tables organised over the course of the two-day Forum will revolve around **actionable concrete solutions to solve today’s energy crisis** and place communities on the right path towards net zero.

About Forum EnerGaïa: An annual event dedicated to renewable energy industry professionals, supported by the Occitanie/Pyrénées-Méditerranée Regional Authority and organised by SPL Occitanie Events, the European Forum EnerGaïa has been accompanying the renewable energy industry for 16 years. Backed up by a content-rich programme of talks, round tables, workshops and pitches giving centre stage to the expertise of key players in the sector, Forum EnerGaïa has reasserted its status as a major meeting for renewable energy professionals.

From technical innovation to ongoing projects and from the latest industry developments to new regulations, project financing and shared experience, a wide range of highly tangible subjects are covered at the Forum which for its 16th edition on 7 and 8 December 2022 at Montpellier Exhibition Centre expects to welcome more than 8,500 professionals and 280 exhibitors.

Forum EnerGaïa has received the backing of COP21, COP22, COP23 and COP24. It is organised under the high patronage of the French Ministry for the Ecological Transition and the European Commission Representation in France.
