

Forum EnerGaïa: registrations now open

Montpellier, 10 September 2024

Public officials, professionals, students: now the summer break is over, it's time to get back to tackling the challenges ahead of you this autumn. To support you in your undertakings, visitor registrations for Forum EnerGaïa are now open! Visit <https://www.energaia.fr> to sign up and obtain your free badge.

Acknowledged as an essential gathering for the industry, Forum EnerGaïa brings together all the players in the vast renewable energy ecosystem, from production to applications and including all the associated services on key markets; energy, building, agriculture, mobility, industry. The Forum is the business rendezvous for the full chain of expertise in all the verticals of the renewables sector: production, distribution, installation and services: all the solutions and technologies can be found at the Forum to enable developers and decision makers, be they from the public or private sector, to find tangible and cross-disciplinary answers to the deployment of their projects.

This year, **EnerGaïa will take place on Wednesday 11 and Thursday 12 December 2024** at Montpellier Exhibition Centre. More than 500 exhibitors are expected, spread across five exhibition halls spanning more than 24,000 sqm.

This 18th edition will take on an even more comprehensive format to address today's burning issues and the needs of visitors, through:

- **The opening of a new theme pavilion on solar heat**, in collaboration with Enerplan, the trade association for solar energy professionals. This comes in addition to two other theme pavilions, **Sustainable Buildings** and **Jobs and Training**. These three themes reflect the key industry issues that will be explored at the show.
- **The launch of the Innovation Awards**. Four prizes will be presented in all-new, cross-disciplinary categories: International Award, Deployability Award, Ecosystem Award and Circularity Award. Twelve innovations handpicked by a committee of experts will be showcased in a dedicated space, Innovation Gallery, at the heart of the Forum. The winners will be announced following a series of live pitches delivered before the judges and visitors, at an awards ceremony held at the exhibition on 12 December.
- **A programme of nearly 100 talks, panel discussions, workshops and pitches** in the presence of expert speakers. The [full programme can be found here](#).
- **2 Business Meeting spaces** will offer a setting for **face-to-face appointments** where visitors can meet exhibitors, find the solution suitable for each project, build their networks and get the most out of their time at the show. Registered visitors and exhibitors can make appointments with one another seamlessly and free of charge via the website.

About Forum EnerGaïa

An annual event with nationwide and international reach dedicated to renewable energy industry professionals, Forum EnerGaïa has been accompanying all the sector's stakeholders for 18 years. Initiated by the Occitanie/Pyrénées-Méditerranée Regional Authority, Forum EnerGaïa is today a showcase for the actions the authority is taking to promote the energy transition and achieve its objective of becoming the first positive energy region in Europe. SPL Occitanie Events, the organiser of the Forum EnerGaïa, is committed to an eco-responsible approach. It has been ISO 20121 certified by AFNOR since January 2021 for all its activities.
